Accent Fin™

Give your designs an accent
everyone will love

Accent Fins shown are digitally rendered for illustrative purposes

Accented Designs /

Kingspan's Accent Fin is the perfect way to give your building designs a finishing touch and make them stand out from the crowd. Accent fins can be placed anywhere on the panel and installed in any orientation because they fasten independently from the panel itself, giving you total design flexibility. Best of all, they won't slow down your project. You can install and dry-in the panels first, then add the fins later without disrupting your schedule.

The Accent Fin products are designed to be compatible with Kingspan's KS Series, Optimo® and Designwall 2000 and 4000 insulated metal panel range.

Choose from eight unique fins to complement your design, all available in standard or custom colors to match your vision.

Compatible with:

- KS Series
- Optimo®
- Designwall 2000 and Designwall 4000
